FLORIDA ODYSSEY OF THE MIND

SHELL-ABRATING CREATIVITY

*43rd Annual Florida
Odyssey of the Mind
State Tournament*

Welcome and thank you for joining in the celebration of FLOMA's 43rd Annual State Tournament! We are thrilled to have you here with us today to celebrate the creativity, teamwork, and problem-solving skills of our talented teams. It has been an exciting journey, and today marks a significant milestone in their Odyssey of the Mind adventure.

As you make your way through the event, take the time to visit the various problem-solving sites and watch the incredible solutions these teams have developed. Whether you're cheering on a team from your region or discovering a new team to support, this day is all about collaboration, creativity, and fun. Every team here today has worked incredibly hard, and regardless of the outcome, they are all champions.

I hope you have a chance to enjoy Phil Fest and meet Phil the Flamingo! It's a great way to take a break, have fun, and connect with other participants.

We'd like to give a special thank you to the coaches, parents, and volunteers who have helped make this event possible. Their dedication and support have been crucial in ensuring that all of our teams have the opportunity to compete and showcase their creative solutions.

As part of today's festivities, we are hosting a Silent Auction. The funds raised will help keep registration costs affordable and ensure a great experience for future tournaments. If you were a lucky winner, make sure to look for Melinda Gerding to pick up your loot!

Also, remember to take advantage of the discounts from local businesses and attractions for Odyssey of the Mind participants. Discount coupon books are available at registration/information tables (while supplies last).

Thank you again for being a part of FLOMA and celebrating the spirit of creativity and problem-solving. We're excited to see all of the innovative ideas and solutions throughout the day. Best of luck to all the teams and enjoy the tournament!

2024-2025

LONG-TERM PROBLEM SYNOPSIS

Problem 1
Vehicle

The OM-Mazing Race

Ready, set, go! In this problem teams will design, build, and operate an all-terrain vehicle that transports riders on a race for a prize. The performance will include a race to three original, team-created destinations and each leg of the race will include an obstacle that the rider and vehicle must overcome. The performance will include a host that narrates the action and it will conclude with the realization that the prize for finishing the race was not as exciting as the Odyssey they took along the way.

Problem 2
Technical

Mech-Animal Sidekick

The saying goes "dog is man's best friend" but this year OMers get the chance to invent their own bestie! In this problem, team will design, build, and operate an original robotic animal that has the ability to make people happy. In the performance, the Mech-Animal will perform various tricks that cheer people up. When it suddenly goes missing, the people search for it and find the Mech-Animal in a very unusual place. The performance will also include live music, a toy for the Mech-Animal, and a trainer character that explains the tricks.

Problem 3
Classics

Classics... Cooking with Books

Classic cooking takes on a new meaning as teams create a performance about an original chef character that is inspired by fictional literary characters and events. Teams will choose from selected classic literature and create a gourmet meal based on their chosen book. The performance will include a setting from the book that inspired the meal, a team-created cooking gadget, and a dinner party featuring the meal that includes a character from the book.

Problem 4
Structure

Save Me Structure

OMers to the rescue! In this problem, teams will create a performance about an unusual animal rescue character that needs to find homes for balsa wood and glue animals. Two animals will represent actual living animal species and another will be team-created. The animal rescue character will test if a home is safe by balancing and holding as much weight as possible. The performance will also include one animal getting a check-up, a humorous veterinarian character, and the creative use of Arm & Hammer Baking Soda.

Problem 5
Performance

AstronOMical Odyssey!

OMers always shoot for the stars, and this problem is no different! Many civilizations have used stories, myths, and legends to explain the stars in the sky and their patterns. In this problem, teams will create a humorous performance set in a team-created "historical" civilization that presents constellations and original stories explaining each one. The performance will also include a humorous astronomer character with a "stellar" costume, a lighting effect, and a shooting star!

Primary

It's a Wonderful World!

Travel back in time as OMers explore the Wonders of the World. In this problem, teams will create a performance about the Seven Wonders and create an original wonder that celebrates an achievement in our modern time. A time traveler character will take an architect on a trip to the past to find inspiration for this new creation. The performance will include an ancient setting, original artwork depicting a Wonder, and a creative time machine.

The **RANATRA FUSCA CREATIVITY AWARD** represents the essence of Odyssey of the Mind. It is presented to teams or individuals who exhibit exceptional creativity, either through some aspect of their problem solution or an extraordinary idea beyond the problem solution. A successful problem solution is not a criterion for winning the award; rather, the award is a way to acknowledge and encourage creative thinking and risk-taking.

OMER'S AWARD is named for the Odyssey of the Mind raccoon mascot, OMER, in recognition of individuals or teams who demonstrate outstanding sportsmanship, exemplary behavior, or exceptional talent. Recipients of this award may be coaches, team members, parents, officials or anyone else that tournament officials or directors feel exhibit these traits. This award is not intended to reward creativity. Anyone may inform a tournament official of a possible OMER's Award candidate. That official will then determine if that person should be nominated. All nominees are reviewed by a panel that determines the final recipients.
